# Astrinnea *Hair Tonic*

## Active Ingredients

- Monopropylene Glycol (0.2%) – a non-greasy moisturiser and humectant that is easily absorbed into the scalp and helps control moisture levels in hair. By gently massaging it into your hair and scalp, the hair shaft is protected, shine is added, roots are nourished and tension relieved.
- Tea tree oil (0.1%) – a medicinal essential oil known for its anti-septic properties. Tea tree is also known to combat dandruff and relieve an itchy scalp. Ensures protection and conditioning of your hair and scalp especially after a trim.
- Rosemary Oil (0.1%) – effective in tackling dandruff and hair loss. Helps seal hair shafts, thus minimising the effects of brushing and combing which can result in split ends.
- Herbal Perfume (0.1%) – plant extracts give a refreshing, mild scent for all-day freshness.
- A water/alcohol base – ensures ease of absorption into the scalp and encourages blood circulation.

## Key Selling Points

- Astrinnea can be used for any hair type.
- Used widely, as it also disinfects and maintains condition of hair extensions.
- Promotes growth and reduces dandruff and dry scalp.

# 2~Drop Sweetener & Sweetabs

*Calorie free sweeteners suitable for use by diabetics  
or for calorie controlled diets*

**2~Drop Sweetener is available in a 30ml dropper bottle  
and a 100ml refill bottle. Sweetabs come in a vial containing 100 tablets**

**- Minimum order box of 16 vials.**

**2~Drop Sweetener - 2 drops = 1 teaspoon of sugar  
Sweetabs - 1 tablet = 1 teaspoon of sugar**

Sodium Saccharine (0.16%) is the active ingredient in both products. It is 300 times sweeter than sucrose (sugar) but is virtually free of calories, does not affect blood glucose levels and does not contribute to dental cavities. Saccharine is recommended by the Zimbabwe, British and American Diabetics Associations over other sweeteners.

It has been proven safe for human consumption by most world health authorities.

- **Locally available in liquid and tablet forms only from Lemex Products**
- **Non-calorific, unlike other sweeteners such as fructose and sucrose**
  - **2~Drop Sweetener may be used for cooking and in cold beverages, unlike most sweeteners**
  - **No known contra-indications**
  - **No bad aftertaste**

N.B. Despite using sugar-free sweeteners, cakes, biscuits and confectionery may still have high fat and calorie content and should be eaten in moderation.
